Who can resist the colors of Autumn? Try a door hanging or set your table with flowers

Take advantage of this glorious season to decorate your home with the bounty of nature, for Thanksgiving, or every day. You can easily create a door hanging to greet family and friends by gathering small gourds, miniature corn, cuttings from your garden. It's up to you! Maybe you prefer small lemons and limes, or colorful small apples to mix with your greens. Don't overlook Brussels sprouts! Turn back some of the leaves to create a sprout "flower". These versatile hangings will last for a long time in the cooler temperatures outdoors.

Start with a **FloraCage**. Float soak in water. Add broad-leaf and needled green to create a background. Then dress it up with groups of fall-colored flowers, berries, fruit, pine cones—whatever strikes your fancy.

Use 4-6" bamboo cocktail skewers to add fruit and sprouts to the foam block. You can buy them at the grocery store. You can carefully drill holes through the tops of walnuts or pecans and wire them into groups. Place them in a vise for drilling with a small bit. **Wired picks** can be used to attach pine cones.

Keep your arrangement wet by pouring water over it every few days, especially if it is placed in the sun. When the season changes, compost the plant material, and discard the floral foam. The cage will open so that you can replace the foam with a fresh 1/3 brick and then you're ready for a December holiday arrangement!

FloraCages are available in two sizes, The cage is reusable.

Holes at the top of the handle and the bottom of the cage allow you to add bows. Use the handle for hanging.

Place-It Holder flowers on glass

Flowers anywhere! Oasis Deluxe Floral Foam in a cage that can attach to any non-porous surface. The super-suction **Place-It™ Holder** can be attached to surfaces such as glass, mirrors,

Metal doors, even automobiles. Save the cage and replace the foam for multiple use. Holder Size: 5" x 5" x 3.5"
